Art Unit: 1653

A request for continued examination under 37 CFR 1.114 was filed in this application after appeal to the Board of Patent Appeals and Interferences, but prior to a decision on the appeal. Since this application is eligible for continued examination under 37 CFR 1.114 and the fee set forth in 37 CFR 1.17(e) has been timely paid, the appeal has been withdrawn pursuant to 37 CFR 1.114 and prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on December 28, 2003 has been entered.

Claims 1-51, 55-62, and 64-67 have been canceled. Claims 52-54, 63, and 68-80 are currently pending and are under examination.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 68 and 69 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 68 and 69 recite the limitation "at least about 70%" or 50%, respectively. The word "about" renders the phrase indefinite because it is not clear if 50% is about 70%, or if 45% is about 50%, for example.

Claims 68 and 69 are also indefinite because these claims recite the term "similarity". It is not clear what is intended by this term because, for example, derby (hat) is similar to a Stetson (hat); it is difficult to quantify a quality difference. Applicants may wish to use the art-recognized term "identity" for comparison of one sequence to another.

An Examiner's Amendment was offered to place these claims in condition for allowance but this offer was not accepted.

Claims 52-54, 63, and 70-80 are allowed.
